

Commercial Leases CE Course

No Charge for NWLAR CID members!

Attention commercial practitioners!

Back by popular demand in 2010, LR's Commercial Leases course covers basic legal requirements and types of commercial leases, including construction/ownership of improvements, triple-net provisions, termination issues, and other related details.

*Note: The Commercial Leases CE course is not an alternative to the 2010 mandated 4-hour topic "License Law", which both commercial and residential practitioners are required to take for license renewal.
