## SUSTAINABLE DEVELOPMENT AND THE COMMERCIAL TRANSACTION

Attention commercial practitioners! Satisfy your 4-hour continuing education requirement in 2011 with a new course that relates specifically to your practice!

Louisiana REALTORS is pleased to present "Sustainable Development and the Commercial Transaction", a special CE course that covers the major factors to be addressed by commercial practitioners when working with sustainable development projects.

This 4-hour course includes understanding of zoning types and restrictions; special lease and purchase agreement provisions; greenspace requirements; parking, drainage and access issues; and other considerations related to commercial representation, sales and leasing in smart growth projects.

Randy Roussel of Phelps Dunbar LLP will be the instructor for this course.

Note: The "Sustainable Development and the Commercial Transaction" CE course is not an alternative to the 2011 mandated 4-hour topic "Broker and Agent Responsibility", which both commercial and residential practitioners are required to take for license renewal.
